

# Mastering English Connectors

Enhancing flow, coherence, and impact in adult conversation.

# Lexicon of Logic

## VOCABULARY

### Contrast

Words used to show opposition or unexpected results (e.g., *although*, *despite*).

### Reason & Consequence

Words that explain motivations (*since*, *as*) and results (*therefore*, *so that*).

# The Art of the 'Bridge'

Imagine telling a story about your weekend. If you only use short, choppy sentences, you sound like a robot.

## The Hook

How do words like 'although' or 'however' change how people perceive your professional authority during a meeting?

### Key point

Connectors are language 'bridges.'  
They show how ideas relate before you finish your sentence.

# Contrast: The 'But' Upgraded

## SPEAKING PRACTICE

Professional English requires variety beyond 'but'.

### Try this:

Describe a project or movie you enjoyed, *even though* it had flaws.

### Focus on:

*although, even though, despite, in spite of.*

### Example

'Despite rain, we hiked.' vs 'It rained; however, we hiked.'

# Reason: The 'Why' behind the 'What'

Justifying business decisions requires context. Explain choices using *as* or *since*.

## Situation

'I chose to study engineering...'

### Remember

*Since* and *As* introduce reasons.

## Connector Options

- *Since* I excel at math.
- *As* industry grows.

# The Strategic Meeting

Listen to the audio and answer the questions

*Decision making and consequences*

▶ Play audio

- 1 Why does Sofia need to cut costs?
- 2 What is Mark's suggestion to balance the books?
- 3 Why is Mark prioritizing the production department?
- 4 How will the CEO receive the report?

Answers on the next slide...

# The Strategic Meeting

Check your answers below

*Decision making and consequences*

► Play audio

- 1 Because the cost of raw materials has increased.
- 2 Reducing the marketing spend for a few weeks.
- 3 To ensure long-term survival, despite the risks involved.
- 4 Via email, since he is currently away.

# Consequence & Purpose

## WORKPLACE SCENARIO

In professional life, every action has a result or an intended goal.

### Practice:

Talk about a change you recently implemented in your routine **so that** your life or work became easier.

### Keywords:

*Therefore, Consequently, So that.*

# Building a Coherent Argument

Answers on the next  
slide...

Order these sentences to create a logical flow of contrast, reason, and consequence.

**We eventually secured the capital so that we could begin construction.**

**Therefore, we spent the whole month pitching our ideas.**

**Although the project was ambitious, we lacked the necessary funding.**

**Since we were short on cash, we looked for new investors.**

# Building a Coherent Argument

Order these sentences to create a logical flow of contrast, reason, and consequence.

**Although the project was ambitious, we lacked the necessary funding.**

**1.**

**Since we were short on cash, we looked for new investors.**

**2.**

**Therefore, we spent the whole month pitching our ideas.**

**3.**

**We eventually secured the capital so that we could begin construction.**

**4.**

# Fluency Challenge

## FINAL TASK

Select a topic and speak for 2 minutes using connectors for Contrast, Reason, and Consequence.

1

**The Future of Hybrid Work in Chile** - How and why has it evolved?

2

**A Personal Travel Experience** - A trip that went wrong but ended well.

# Self-Correction & Feedback

Which connector do you find hardest to use naturally? Why do you think that is?

# Self-Correction & Feedback

**You might have said...**

I struggle with 'despite' as it requires a gerund or noun, not a verb.

I default to 'but' or 'because' as they are easier under pressure.

'Therefore' feels too formal for casual use, so I rarely use it.
